

# Guy/Stay Guards

## Guy/Stay Guards

Preformed Stay Guards are for identifying guy or stay wires or other wire and cable installation. They clearly identify stays in residential, industrial and rural situations, safeguarding against accidental collision.

### Features

- Smooth - no jagged, sharp edges.
- Resilient - bounces back to shape when bumped.
- Withstands blows without shattering or cracking, even in subzero temperatures.
- Lightweight and compact - easy to store or transport.
- No corrosion.
- Self extinguishing.

Part Number	Internal Diameter (mm)	Length (m)	Standard Pack Quantity
