

COYOTE® MPC (Multi-Purpose Closure)

Multi-Purpose Closure (MPC)

The COYOTE MPC is the latest product to the COYOTE Fiber Optics family to focus on the MDU environment. The new closure system provides a flexible platform to address the multitude of applications that exist in your residential and commercial FTTx installations. The closure's styled exterior and neutral color allow it to blend with the surroundings but, good looks aren't everything, the MPC is also highly functional. The closure is constructed of durable, UV stabilized, flame retardant (UL 94-5VA) polymer to permit interior or exterior applications. Eight cable entrance ports around the closure exterior accept an easy to use grommet system and standard commercially available fittings. The closures' interior can be configured to address slack storage, splicing, cross connect, hardened adapter applications or a combination of all. Pre-terminated configurations are also available to minimize the amount of labor required during your installation.

Key Features:

- Size: 16" L x 14" W x 4" D (41cm x 36cm x 10cm)
- 8 Cable entrance ports around closure exterior
- Cable entrance ports are sized to accept PLP grommet adapter ports or commercially available fittings
- Easy to use grommet system – 7 different multi and single hole grommets to choose from
- Constructed with UL 94 5VA polymer compounds to provide the highest flame resistant rating
- Interior grid hole pattern allows custom organization to address your specific application
- Integrated rubber seal eliminates water entry
- Custom logo plaques available to identify your company logo, contact your PLP representative for further details
